

COMPANY PROFILE

APUS CORP

APUS Digital Technology Solutions JSC

A technology company building an ecosystem of in-house products for businesses — from incorporating a company and selling, to running the whole enterprise and custom software. We own our core technology; your data stays yours.

2021

Founded

100%

In-house products, full source-code ownership

5

Products & services in the ecosystem

16 + 1

Business modules + Apus Office

Apus Platform is our flagship — researched and built in-house, run and supported long-term by our engineering team in Vietnam.

VISION, MISSION & CORE VALUES

What drives us

MISSION

Provide end-to-end management solutions that help businesses overcome the technology and cost barriers of digital transformation.

VISION

Become Vietnam's leading technology company for management solutions, expanding into Southeast Asia by 2030.

Dedication & Professionalism

We see things through, to standard, in every delivery.

Trustworthiness

Commitments in the contract and long-term partnership with clients.

Transparency

Clear on scope, cost, timeline and ownership.

Security & Privacy

Your data belongs to you, on the infrastructure you choose.

THE APUS ECOSYSTEM

A product for every stage of a business — grow by adding on, never by starting over

Apus Launch

apuslaunch.com

NO COMPANY YET / JUST INCORPORATED

Company formation, recurring back-office, website & digital presence.

Apus Commerce

apuscommerce.com

ALREADY SELLING

POS and online store for retail, F&B and pharmacies — a SaaS service.

Apus Platform

apusplatform.com

MULTI-BRANCH, MULTI-ENTITY

Unified operations platform with an AI-agent layer. APUS's flagship product.

Apus Software

apussoftware.com

Custom software and AI/data solutions built to your requirements — Fixed / ODC / Hybrid. Delivered by the engineers who build Apus Platform.

Apus One

apus1.com

A personal operating system — work & study toolkit, AI second brain, local-first data. A consumer product.

Coming soon: Apus Hospitality — hotel & lodging management (PMS) on the same Apus core platform.

OUR JOURNEY

From 2021 to today

2021

2022

2023

2024

2025

2026

APUS founded

Seasoned engineers start the company and Apus Platform — an in-house management platform from day one.

Platform foundations

Single data layer, microservices; core Finance, Inventory and Purchasing modules.

More modules

MES, QMS, HRM, CRM, EDM and collaboration added — a full operations platform takes shape.

Enterprise clients

Rolled out at manufacturing, distribution and education groups with trillion-VND revenue and thousands of staff.

AI hybrid & Apus Office

Internal + external AI; the Apus Office workspace for every employee.

The Apus ecosystem

Apus Launch, Commerce, Software and One alongside Apus Platform — serving businesses at every stage.

2030 — Goal: Vietnam's leading management platform, expanding into Southeast Asia.

TEAM & ENGINEERING

Leadership & product-grade engineering

Tô Thế Đạt

Founder & CEO

Leads product strategy and company growth.

Đặng Nhân Ngoan

Co-founder & Tech Lead

Leads platform architecture, microservices and AI strategy.

Đinh Thị Dung

Sales Director

Business development, partnerships and customer success.

Nguyễn Thành Nam

Project Manager

Runs implementation projects, timelines and acceptance.

Proven at scale

Our engineers have built and run systems serving millions of users and millions of daily transactions on microservices. Flagship proof: the Viettel e-wallet (VDS) core and satellite systems — a team of up to 28 engineers.

Technology

Architecture: Cloud-native · Microservices · API-first · Event-driven (Kafka)

Backend: PHP · Python · Go · Java · Node.js

Infrastructure: Docker · Kubernetes · AWS · GCP

Data: PostgreSQL · MySQL · MongoDB · Qdrant (vector)

OUR FLAGSHIP: **APUS PLATFORM**

More than ERP — one platform for your whole business

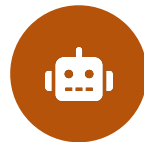

More than ERP

16 business modules in 5 capability groups — finance, supply chain and manufacturing through CRM, HR, projects, documents and BI.

Apus Office included

Tasks, approvals, e-office and internal chat included; video meetings, email and online editors are add-ons.

Hybrid AI & Ami agents

Internal AI for sensitive data, external AI for complex work; a team of business agents works alongside each department.

100% your data

Private cloud · Self-hosted · Self-hosted + Apus-managed, optional source-code handover — one dedicated instance per business.

Every role × every device

Web · Apus Apps

Desktop

Mobile · Superapp

→ *one real-time data layer*

FEATURED CLIENTS

All four run Apus Platform self-hosted — their data stays on their own infrastructure

Edufit Education Group

K-12 EDUCATION

3,000+ staff · 14 campuses

Model: **Self-hosted** Rollout: **~5 months**

CTH · APODIO

CERAMICS MANUFACTURING · EXPORT

Trillion-VND revenue · 3 plants · 2,000+ workers

Model: **Self-hosted** Rollout: **~9 months**

TASA Group

INDUSTRIAL MANUFACTURING

Trillion-VND revenue · 2 plants

Model: **Self-hosted** Rollout: **~9 months**

Thanh Long Group

CONSUMER GOODS DISTRIBUTION

28 tier-1 distributors · 150 field reps · 6,600 outlets

Model: **Self-hosted** Rollout: **~4 months**

Plus large-scale engineering projects by the Apus team, notably the Viettel e-wallet (VDS) ecosystem.
